

Cheat sheet for PPP (present-practise-produce) lessons

Lesson stage	Aim	My plan
Lead-in	To get the student interested in the topic and activate their background knowledge about it	
Language clarification	To introduce the target language (grammar/vocabulary or functions)	<p>MEANING (concept-checking questions):</p> <p>FORM:</p> <p>PRONUNCIATION:</p>
Controlled practice	To consolidate the student's knowledge about the target language (e.g. a gap fill task, multiple choice, sentence transformation, etc)	💡 Tip: Feel free to do on-the-spot error correction here, the language is still new to your student!
Freer practice	To give the student an opportunity to practise the new language in a free, personalized way (e.g. a role play, speaking activity, writing, etc.)	💡 Tip: Make this as personalised and engaging as possible to aid long-term retention!
